Korean War Today
NEW The war that began on 25 June 1950 ended in an armistice. Technically, the war continues. Korea is still a potential flashpoint and, based on current North Korean and U.S. relations, remains a concern for the Western world. Music Theory (and More) for the Listener
NEW Do your eyes glaze over when you attend the symphony and try to read the program notes? Do phrases like "a modulation from F minor to the distant key of E major" intimidate you? Do you wonder just what the guy standing in front of the orchestra with his back turned is doing with that little stick? Interested in learning about sonata-allegro form, or just what kind of a piece a symphony is and how it differs from a suite or an overture? Cover basics of notation, key, time, and musical forms as well as the roles of the various performers—from the standpoint of the LISTENER and not the professional. Become a better-informed classical music listener!

Caesar's Civil War, 50-44 BCE
NEW By the end of the War in Gaul, Julius Caesar had reaped great personal rewards. He was richer and had greater achievements than any other living Roman save perhaps Pompey. His future electoral success was virtually guaranteed. However, much to his dismay, nothing worked out as Caesar had planned. Instead of coming back home as a hero, he returned as a rebel. It's difficult to say when civil war became inevitable. It wasn’t fought for issues, but for personal position and dignity. Discuss the context and implications of what led to the Caesar's Civil War and get a better understanding as to how those things affected Rome and led directly to the fall of the Republic.
09/10–10/29 • M • 10:30 am–noon C67F1806 • J.V. Beaupre

Poetry for Fun
Laurence Perrine once said, poetry is central to "the fully realized life, something that we are better off for having and without which we are spiritually impoverished." However, many people are intimidated by poetry, fearing that they will not understand the "hidden meanings". Break down those barriers, beginning with reading poetry more successfully. Students will read selected poems and hopefully inspire a lifelong enjoyment of poetry.

C61F1813 • J Chadwick

More Alabama in the Movies
